

## Mini Cordsets

**Quick-Connex® Mini Cordsets - Quick-Lock Safety Device**

Quick-Connex® Mini Cordsets - Quick-Lock Safety Device for use on ATPC size "A" size 3-6 Pole. Disconnection is made impossible as this safety device prevents the accidental disconnection of power, warning the operator to shut down the power source before removing the Quick-Lock. Used with ATPC Quick-Connex® Mini cordsets, the Quick-Connex® Quick-Lock is UL Listed for Class I, Division 2 Hazardous Locations when sudden interruption of power can cause a safety issue.

For building cordsets with Quick-Connex® Quick-Lock for use in UL Listed Class I, Division 2 Hazardous Locations, follow the "Build Your Own Cordsets with Quick-Lock Assembly for Hazardous Locations" smart part instructions.

For added security, a Master Lock is available as an additional option, provided with two identical keys. Each lock is keyed differently.

**Ratings**

For Use in UL Hazardous Locations Class 1, Division 2

**Performance Characteristics**

✓ For Use as a Safety Lock-Out Device ✓ Operating Temperature: -20° to 90°C ✓ Oil Resistant

**Features & Benefits****Prevents Accidental Disconnection of a ATPC Quick-Connex® Mini cordset in Class I, Division 2 Hazardous Locations**

When locked into place, the device cannot be disconnected, providing protection against unintentional separation of cable connection and power source.

**Safe for Operator Use**

Serves as a safety device, warning the operator to disconnect the power before removing.

**Easy to Install**

Lightweight and easy to lock into place on a connection. Installation instructions are included.

**Applicable for Quick-Connex® Mini A cordsets**

For added security, Quick-Lock requires a tool for removal and is captive to the cable assembly with a wire tether.

**Compatible with Master Lock**

Quick-Connex® Quick-Lock can be used with Master Lock for guaranteed safety lock-out.

**Master Lock is 1-3/16" wide, 3/16" diameter steel shackle with 4-pin cylinder**

Scratch and corrosion resistant black vinyl body is tamper resistant to cutting and sawing, 4-pin cylinder, dual locking internal levers resist against prying.
