

Electrical Components

Hoff-Trex® Flag Terminals

Hoff-Trex® Flag Terminals are designed with right angles to fit connections into tight spaces. These terminals slide together and pull apart with ease, so they are convenient for applications that require frequent connections.

Ratings

Engineered to Resist Tension

Features & Benefits

<p>Single Crimp Added tensile strength and strain relief against wire pull-out</p>	<p>Available in Sizes from 22 AWG to 4/0 Perfect for small and large gauge requirements.</p>	<p>Butted and Brazed Seam Configurations Available Ensure maximum strength of wire terminations.</p>	<p>Offered in Loose Piece Bulk and Metal Strip Suit the Demands of Various Operations.</p>
