Wire Stripper

TPC's Wire Stripper is a durable tool that can strip cable with an outside diameter range of 0.0395" to 0.1260". It has an automatic function that prevents the crushing or cutting of the finest wires or wire filaments. A great addition to any electrician's toolbox.

Our wire and cable stripper is durable and useful in a wide range of settings to help you cut, strip, and terminate a variety of cable sizes.

Part No.	Sizes	Cable O.D. Range (in.)
HY510B	18-8 AWG	0.0395" - 0.1260"

Industrial Cable Tools

Cable Stripper

Cable strippers can strip standard round cable jackets from .157" to 1.10" outside diameter. Compact and ergonomically designed with non-slip padding to ensure a good grip while stripping the cable.

Tin-coated blade retains its sharpness and the blade height adjustment knob allows for precise depth of cut. Safer to use than a knife or razor blade.

Temperature Tag

The TPC Temperature Tag will allow you to choose the right cable for your environment. Temperature affects ampacity and by using the temp tag, you can determine the temperature range your application reaches. The tag changes color from orange to black. In the environment, black indicates highest temperature.

Temperature tags are good for use in conveyors, pumps, motor operated valves, emergency isolation valves, kiln fans and furnaces, control panels and any hot environment.

Ratings Temperature Range 90°C – 250°C (194°F – 482°F)

Performance Characteristics ✔ Immediate Response ✔ Oil and Water Resistant ✔ Self-Adhesive Label ✔ One Time Use

Engineered to Resist 🌡 High Temperature
