

# Custom Reel Enclosures & Cable Reels

## Engineered for the World's Toughest Environments

At **Amphenol TPC Wire & Cable**, we design and manufacture **custom cable reel enclosures** built to perform in the harshest environments—shipyards, docks, military zones, and remote job sites. Each enclosure is purpose-built for mobility, safety, and durability to protect and manage mission-critical cables.

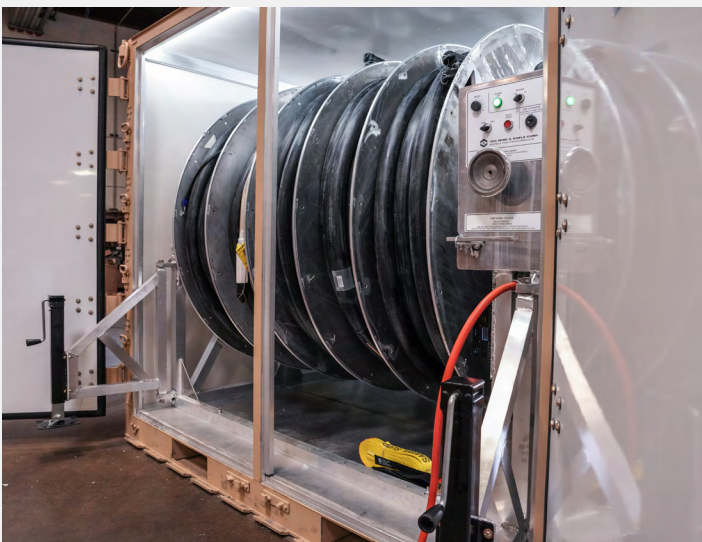

## Built-to-Order Customization

Every application is different—so every solution should be too. We offer full customization for:

- **Enclosure Size & Configuration** – Adjust layout, internal features, and access options.
- **Cable Type & Length** – Choose from our wide range of rugged, industrial-grade cables.
- **Connector Assemblies** – Tailored to meet your shore power, military, or marine application needs.

From single-unit projects to large-scale deployments, we'll work with you to build the exact solution your environment demands.

Feature	Benefit
<b>Enclosed Reeling System</b>	Cables are safely stored and easily deployed to remote or hazardous locations.
<b>Fully Electric Power Operation</b>	Reduces maintenance costs and enables operation in virtually any environment.
<b>Internal LED Lighting</b>	Provides visibility during low-light or nighttime operation, improving safety and efficiency.
<b>Access Panel to Electrical Components</b>	Simplifies maintenance and troubleshooting by providing direct access to internal systems.
<b>Military-Grade Enclosure</b>	Lightweight and highly durable design protects cables from environmental damage and physical impact.
<b>Enclosure Lift Points</b>	Allows safe and secure transport by <b>helicopter, crane, or forklift</b> —ideal for mobile or emergency operations.
<b>Forklift Pockets</b>	Makes ground transport simple and safe—load onto trucks or aircraft with ease.
<b>Foldable Steps</b>	Safe, convenient access to the top of the enclosure for inspection or lift point access.
<b>Secure Reeling System</b>	Provides controlled, powerful reeling for heavy-duty cables such as shore power lines.
<b>Foot Pedal Rotation Control</b>	Hands-free operation allows for safer, more efficient cable handling and deployment.
<b>USB Power Port</b>	Convenient charging port for phones and small electronics while on the job.
<b>Optional Internal Storage</b>	Add extra space inside the enclosure for tools, connectors, or other job site essentials.

**Let's Build a Safer,  
Smarter Solution**
