TURN ROLLER WELDING APPLICATIONS

CUSTOMER PROBLEM:

The cable used to power the turn roller kept failing due to burning of weld splats, pulling and dragging. They were replacing it every couple months.

TPC SOLUTION:

The customer replaced 65' of cable with TPC's Super-Trex® Triple-Gard™ multi-conductor 14/4 portable cord.

CUSTOMER'S RESULT:

Even though TPC cable was more than double the price, it hasn't needed to be replaced for 18 months and counting! It's saved \$423.15 in material cost, \$1475 in labor and over 66 hours of increased production.

TPC PRODUCT: Super-Trex® Yellow Triple-Gard™ Portable Cord
